TARIFF BILL MAY YET MEET ITS WATERLOO

Democrats and Insurgent Republicans May Vote Down the Conference Report on Same.

WASHINGTON, June 8.—There is one angle of the tariff situation that is being discussed in Washington more than any other. That is the possibility of a defeat of the Aldrich-Payne measure in the House through a combination of Democrats and progressive Republicans. The subject is on everyone's tongue just now.

It is said there is a plan on foot to reject the conference report on the bill, and force a second and possibly even a third conference with the view to compelling concessions in various schedules.

It is impossible to say whether the bill will be defeated in this manner. It all depends on the number of Republicans that can be aligned with the Democrats. The latter will vote almost solidly to reject the conference report.

There has been no conference between the Democratic leaders and the progressive Republicans on the subject. The position of the Democrats is: "We are against the bill at every jump in the road, and will vote against it almost to a man. If you progressive Republicans of the House will vote with us we can reject the conference report and compel improvements."

The leaders of the House insurgents have made a canvass. When a Republican Congressman returns to Washington after a short visit in his district he is immediately approached by the insurgents. He is asked to vote with the Democrats. In some instances Republicans have promised to vote against the conference report, on the ground their constituents demand such action, only to later inform the insurgents that circumstances have arisen which require them to vote favorable to the passage of the tariff bill. The secret of the change in heart of such members is that "Uncle Joe" has seen them, and by threats or promises coaxed them back into line.

The Democratic leaders, it can be stated on the best of authority, doubt very much whether enough Republican insurgents will vote with them to reject the conference report. Some of the insurgents, however, are more sanguine. Said a progressive Re-

publican Senator to the writer: "If a vote should be taken on the tariff bill today in the House the measure would be defeated. But Cannon-Aldrich forces, aware of this condition, are active, and by the time the report of the conferees is submitted for a vote it is my opinion that enough insurgents will either be bought or frightened into line to pass the tariff bill."

A leader among the House insurgents, who is just now devoting much of his time to working up sentiment in favor of a combination, believes the plan will be successful. His view is interesting:

"When the House was organized the combination of insurgents and Democrats lacked just four votes of enough to defeat Cannon for the speakership. There were a number of votes which were pledged against Cannon in the event that enough others could be found to make, with these, a majority of the House. The total Democratic and Republican votes thus pledged lacked just four of enough to defeat the Speaker. For the lack of the final four a number which were ready to enter a successful combination never appeared.

"That indicates how near insurgency came to revolution at that time. Today it is much stronger than it was then because so many members have been home and found out how determined is the antagonism to this bill throughout the Middle West.

"I have myself just come from my district, and I found people talking in just two ways. One element says: 'Get the bill passed as soon as possible and come home so we can re-open the fight.' The others say: 'Defeat this bill at all hazards.' Why, I made a speech to a big Republican audience in my district, and was interrupted by a man who shouted out:

"Oh, the next House will be Democratic!"

"And I replied: 'Well, a lot of worse things may happen for the country.'

"Do you suppose those Republicans got up and mobbed me? They just got up as one man and applauded—that was all. That's the way they feel. Don't make a mistake about it."

Baptists May Expel Minister Because of His Book

CHICAGO, June 8.—Prof. George B. Foster of the University of Chicago, whose writings, denounced by some as "a bitter indictment of the Christian religion before the bar of skepticism," have harrowed the clergy of Chicago, yesterday at a meeting of Baptist preachers of Chicago was called on by Rev. Johnston Meyer to withdraw from the Baptist ministry and to yield up his ordination papers. The criticism was directed chiefly at Prof. Foster's recent book, "The Function of Religion."

Only the objection of one man, Prof. A. K. Parker, an instructor at the University of Chicago, prevented the exaction of Prof. Foster. Prof. Parker prevented action by calling attention to a constitutional provision, preventing acting without a week's deliberation. The case accordingly was postponed until June 14.

An "Undesirable Baptist."

It was after Prof. Foster had been

characterized as an "undesirable Baptist" and as a teacher who "would dethrone the church and defy evolution," that the effort to eject him from the councils of the denomination was made.

"Prof. Foster declares," said Rev. W. A. Mathews of the Tabernacle Baptist church, "that one who calls himself a believer in the Bible is a knave." Thank heaven I am a knave."

"May I ask how that word is spelled?" interrupted Prof. Parker.

"K-n-a-v-e," replied the speaker.

"If you will pardon the speaker," observed Prof. Parker, "I have the book in my hand and the word is spelled 'n-a-i-v-e."

"Prof. Foster states in his book," continued Mr. Mathews, "that God did not make man in his own image, but that man made God in his own image. He says we are not fallen angels, but developed animals. He

HER FIRST ELEVATOR RIDE PROVES HER LAST

NEW YORK, June 8.—On her first visit to New York and her first ride in an elevator, Miss Lena Schoonmaker, 19 years old, one of a sightseeing party, was crushed to death yesterday afternoon when her head was caught between the floor of the elevator and the sixth floor of the Flatiron building. The party was being chaperoned by Mrs. Charles M. Hall, daughter of Judge Alton B. Parker.

When four of the girls started to descend in the elevator, Lena fell forward in a faint, her head near the door of the car. The car stopped, but started up again. The head of the girl rolled over the edge of the car and the protruding ledge of the floor caught and crushed her skull, broke her neck and crushed in her chest. She died instantly.

The elevator boy was placed under arrest on a technical charge of homicide.

says that miracles have always been the refuge of ignorance and that modern technic must take the place of magic. I wonder what he means by modern technic."

"He declares that science has undermined the Trinity—of course, that is in his own mind. He says that Jesus was a child of his time and that to copy Jesus is to kill the soul. He makes a tirade against the clergy. He says that the book of humanity is greater than the Bible.

"The title of his book should have been 'Religion Without Christianity.' He is guilty of the supreme conceit of ranking self greater than Christ. He styles our grand old book as the petrified remains of that Christian religion."

Through it all Prof. Foster's 17-year-old son sat with flushed cheeks and shining eyes.

At last, unable to restrain himself longer, he beth rose and cried:

"Why don't you review the book and not the man?"

The speaker paid no attention to the interruption.

When the motion was made to expel Prof. Foster there were cries of "Second it" from all over the hall.

HIGH SPRINGS NOTES.

Social and Personal Happenings From That Busy Town.

HIGH SPRINGS, June 8.—The entertainment given by the Pythian Sisters of Mizpah Lodge No. 13 to the Knights and their friends last week was a charming success. After the address of welcome by Mrs. Annie Phifer, M. E. C., a very charming program was efficiently rendered. The band gave three selections, and as this was their first performance in public, it was appreciated. The refreshments consisting of punch and cake were liberally distributed.

E. B. Godwin received a painful hurt Saturday by falling from a flight of steps. He held little Billie Dow by the hand and in trying to shield him he received the full force of the fall.

Thurston Futch, who has been spending a week at home with his mother, left yesterday for a trip to St. Petersburg.

Mrs. T. F. Cato of Jesup, Ga., is in town visiting relatives.

Mrs. Raymond Futch is spending a week in Jacksonville.

H. B. Foy, Jr., who has recently returned from a trip to Washington, will leave this week to take a position in the A. C. L. offices in Wilmington, N. C.

The union Sunday school picnic to Worthington Springs Friday was a success, in spite of the rain.

Mrs. M. A. Sewell of Lakeland is visiting the family of Mr. R. Higdon, and other friends.

CONFEDERATE VETERANS ASSEMBLE IN REUNION

Stars and Bars and Stars and Stripes Fly Over the Grizzled Heroes--Many in Attendance.

MEMPHIS, Tenn., June 8.—With the Stars and the Bars and the Star Spangled Banner flapping largely and amicably in the soft breezes of a typical Southern day, with the picture of Southern heroes aligned with those who fought for the North, with the streets filled with thousands of visitors, with here and there through the throng the soft gray and gold of the cause that millions revere, the Confederate Veterans' reunion began yesterday.

The formal program does not begin until today. But all day long special and regular trains puffed noisily into the Bluff City of Tennessee and debouched their thousands of passengers upon the platforms. The hotels, taxed to their capacity, have utilized every spare inch of space and the halls and corridors are filled with narrow cots upon which repose good natured but enthusiastic visitors to the reunion. From every store and office and private residence are strung the national colors. The Stars and the Bars and the United Country's flag float side by side on every hand. Big signs tell of State, department and division headquarters. Uniformed and courteous guides are at the service of visitors, and to even look in doubt means a polite offer of assistance from both the men and women who wear the badge, "I live here, ask me."

There probably never has been a Confederate reunion at which the arrangements have been so complete

or the details so ably worked out. It is almost impossible to walk through any depot in Memphis without some courteous stranger inquiring, "Are you a visitor?"

Information bureaus abound and no one can complain that accommodations are not furnished. A huge mess hall in Main street and a commissary has provided meals three times a day for the old boys in gray. They are the familiar beans and bacon, the hard tack and coffee, in addition to all the delicacies that the market can supply. Handsomely gowned and daintily Southern matrons and maids superintend the preparation of food as well as the serving of it, and see that the more timid and helpless of the old vets are not slighted. The town is a myriad of lights and every resident has constituted himself an informal reception committee to see that every visitor is taken care of.

The real business of the reunion begins today at 10 a. m. in convention hall, when Major Gen. J. H. McDowell will call the assembly to order. There will be the usual preliminaries, the address of welcome and responses, and the convention will get down to business.

There will be a floral parade in the afternoon, a meeting of veterans and sons of vets to honor the women of the Confederacy in the evening, and a boat ride on the Mississippi. In the afternoon, too, there will be placed on view the bronzes designed for the State monument in honor of the women of the Confederacy.

Change of Venue For Kelley and Davidson

Circuit Court met Tuesday morning pursuant to adjournment of Monday, Judge Wills presiding.

At the conclusion of taking evidence in the case of the A. C. L. vs. the Melton Lumber Co., action to replevin a locomotive, argument in the case was deferred until the afternoon session.

The case of the State vs. D. M. Davidson and James Kelley, murder, was called and change of venue granted to Putnam county. The case will be tried in Palatka on June 21.

Rosa Lismore, colored, charged with grand larceny, plead guilty to petit larceny, which plea was accepted by the State. This is the case where a whole week's washing of clothes belonging to F. M. Prewitt and family was stolen. Olitha Lismore, husband of Rosa, is yet to be tried upon the same charge.

The case of Duncan Jordan, charg-

ed with the murder of Geo. L. Bryant, marshal of High Springs, was set for 8:30 Wednesday morning, at which time a special venire of thirty is returnable from which to select a jury. Judge Syd L. Carter and Col. B. A. Thrasher are counsel for Jordan.

Afternoon Session.

At the afternoon session the case of the A. C. L. vs. the Melton Lumber Co. was resumed, argument in the case being made by Judge Horatio Davis and Col. Christopher Matheson for defendant, while Col. R. A. Burford closed for plaintiff. Judge Wills charged the jury as to the law in the case, after which the six men retired for a few moments and returned a verdict for the defendant. Col. Burford gave notice of a motion for a new trial.

Court then adjourned until 8:30 Wednesday morning.

As Result of Hanging Scene Lad Is Now Near to Death

ATLANTA, June 8.—As the result of an attempt on the part of youthful playmates to re-enact a hanging scene witnessed in a moving picture show, Girard Williams, the six-year-old son of Mr. and Mrs. M. G. Williams, came near to death.

Girard and his brother, two years older, were playing in their grand-

mother's back yard with one of their little neighbors when the attempt to carry out the hanging scene was made. Girard, being smaller, was selected as the subject and about his slender neck a leather strap was fastened. Girard climbed on top of a coal house and the strap was made

Contingent Fund—Mrs. H. H. McCreary, for cemetery sexton, \$35; B. T. Arnow, \$15.25; S. H. Wienges, \$2; Abstract and Realty Co., \$12.50.

Alderman Goodwin moved to pay sanitary inspector at rate of \$50 per month. Carried.

Alderman Goodwin moved to place Ordinance No. 179 on its third reading, which was carried and passed without a dissenting vote.

Committee on claims reported recommending a reduction in the assessment of D. M. Dean from \$2,000 to \$1,800, which was, upon motion, adopted.

Communication from City Attorney relative to the suits of W. R. Thomas received and ordered filed.

Alderman Burnett moved the bill for paving East Main street with vitrified brick sent in by Board of Public Works against the city be referred to the street committee to investigate and report. Carried.

Communication received from the Elks Lodge relative to exempting them from city taxes was, upon motion, referred to the committee to adjust taxes composed of the mayor, chairman of ordinance committee and finance committee.

Alderman Pound moved that the superintendent of water works be instructed to make the improvements suggested in his communication to council. Carried.

Alderman Pound moved that tax collector be instructed to cancel the personal tax of E. J. Baird of \$84, which was carried.

Alderman Pound moved that president appoint a committee of three to investigate and report on the request of the trustees of the Elks Club regarding refunding money paid out by them for certificates and taxes on the property bought of Mrs. Ida E. Burnett. Carried, and the following were appointed: Aldermen Pound, Goodwin and Phifer.

Alderman Burnett moved that the communication of the Board of Public Works in reference to connections with the sewer main be referred to the mayor with instructions to enforce the ordinance.

Upon motion of Alderman Burnett the clerk was instructed to purchase a new desk and dispose of the one now in use at best price possible.

Alderman Burnett moved that clerk

Upon motion the light committee was instructed to put a 32-candle power incandescent light at the crossing of Magnolia street and Oak avenue.

Ordinance to better enforce Sunday closing was read for first time when Alderman Colclough moved to adopt on its first reading. The motion was lost by Aldermen Burnett, Goodwin, Phifer and Pound voting "no," Aldermen Broome, Colclough and Graves "aye."

An ordinance to amend Section 2 of an ordinance entitled "An Ordinance to Regulate the Running at Large of Animals Within the Corporate Limits of the City of Gainesville," was read and Alderman Colclough moved its adoption. Roll called and those voting "no" were President Broome, Aldermen Phifer and Pound. Those voting "aye" were Aldermen Burnett, Colclough, Graves and Goodwin. Carried.

Motion to place ordinance on table was lost and the attempt to pass it on its second reading suffered a like fate.

Alderman Pound moved that the old steam laundry building be condemned and the owner be given thirty days in which to remove same, which was carried.

The location of Seminary street was referred to street committee with instruction that surveyor be instructed to establish a line.

Alderman Colclough moved that street committee have road roller placed in good repair and placed under shelter. Carried.

Upon motion of Alderman Graves adjournment was taken.

fast to a limb of a nearby tree. Then Girard was "let down." The playmates became frightened and ran to the house, where they informed their grandmother of what they had done.

When taken down the little boy was blue in the face, every muscle was rigid and he was unconscious. After four physicians had worked with him for two hours the little fellow regained consciousness and it was announced at a late hour last night that he had an even chance for recovery.

PRESSING CLUB IS VISITED BY THIEVES

TAKE ALL OF NEW AND BEST
CLOTHING MONDAY NIGHT.

No Clue Has Been Discovered by the
Officers as to Who the Guilty
Parties Are.

Sneak thieves entered the pressing club of D. F. Frazier, at 107 Garden street, sometime during Monday night and cleaned up his outfit, taking all of the best clothes the assortment contained.

Among the stolen goods were seven full new suits, together with two or more skirts that he had just gotten in from his regular customers, and the loss to him is a very heavy one, for the goods can hardly be replaced satisfactorily.

Marshal Arnow has been notified of the theft and is using his every effort to apprehend the guilty party or parties, but up to a late hour Tuesday evening had not discovered even the slightest trace of the robbery.

Frazier had only been in operation a short while, and was located in the stand formerly run by Mustin.

DENIES THE CHARGE.

Owens Claims That He Would Not
Attempt to Escape.

R. H. Owens, the condemned man who is now in the county jail, has addressed a communication to The Sun denying the charge that he attempted to escape from prison along with the other men last week.

Following is the letter:

"In God we Trust.

"County Jail.

"I have said ever since I was convicted that I would not try to get away, and I mean just what I said. I will suffer death before I will leave my wife and baby and the only way I will part from them is by being hung. It is a great wrong to say that I was with the men that were trying to get away. I am trusting in My God, through Jesus Christ. Amen.

NATURE'S WARNING

Gainesville People Must Recognize and Heed It.

Kidney Ills come quietly—mysteriously.

But nature always warns you.

Notice the kidney secretions.

If there are settling and sediment Passages frequent, scanty, painful, it is time then to use Doan's Kidney Pills.

To ward off Bright's disease or dia-

beies.

Doan's have done great work in this locality.

.... J. L. Warren of Starke, Fla., says: "For some time I was a victim of kidney trouble. The kidney secretions were too frequent, in passage, causing me the greatest annoyance and I suffered constantly from backaches and dull pains through the kidneys. I could not rest well and in the morning arose feeling tired and worn out. My back became very lame and I often found it difficult to get around. I at length read about Doan's Kidney Pills and procured a box. Since using them, I have been free from backaches and the soreness and lameness has disappeared. The annoyance from the kidney secretions also ceased and I am able to sleep well. Doan's Kidney Pills benefited me wonderfully and I can recommend them as the best kidney remedy I ever used."

CONCRETE FINISHED ON FEDERAL BUILDING

CONTRACTOR KING SUSPENDS WORK FOR ABOUT TEN DAYS.

First Consignment of Stone and Steel Arrives for the Building and Is Being Placed.

President W. W. King, of the King Lumber Company, has completed all of the concrete work for the new Government building now being erected in this city, and suspended operations to give it more time to fully season before placing the structural steel in place.

The first carload of steel has arrived, also the first car of granite, and this will be followed regularly from now on weekly, or as fast as the workmen can get the orders filled.

Before departing Tuesday for his home in Charlottesville, Va., Mr. King stated that after he again started operations, which would be in about ten days, he would keep a large force employed on the building, and that work would only cease when waiting for material or the weather.

For a city the size of Gainesville he states that we will have the finest and best constructed public building of any city he knows of, and the citizens are to be congratulated on such a liberal appropriation.

The new material is being unloaded by Davis & Oliver, and the new foreman for the company will arrive within the next week to take charge of the building where Mr. King has left off, and rush it as fast as possible.

Men Past Fifty in Danger.

Men past middle life have found comfort and relief in Foley's Kidney Remedy, especially for enlarged prostate gland, which is very common among elderly men. L. E. Morris, Dexter, Ky., writes: "Up to a year ago my father suffered from kidney and bladder trouble and several physicians pronounced it enlargement of the prostate gland and advised an operation. On account of his age we were afraid he could not stand it and I recommended Foley's Kidney Remedy, and the first bottle relieved him, and after taking the second bottle he was no longer troubled with this complaint." BASEBALL BENEFIT THURSDAY EVENING

ELKS WILL LINE UP AGAINST THE "BALL TOSSERS."

Game to Be Played for Benefit of Uniform Fund of the Club at 4 O'clock.

The uniform fund of the Oak Hall baseball aggregation is still deficient, and another game is to be played on the diamond at the park Thursday afternoon to complete the amount that will be necessary for the uniforms.

This time the team is selected from the best players among the Elks. They will go up against the Oak Hall aggregation of artists, and Manager Davis says it will be a game well worth the attendance of the citizens.

Among some of the players that will be lined up for the Elks are: Gardner, Craigin, B. M. Tench, Lee Graham, Dr. Morris, and other old ball players that would make any team get out and hustle for the runs.

The material of the Oak Halls will consist of a large part of the new material that has arrived to take part with us during the season, and the people will be given an opportunity to see them on their first try out.

Aside from the fact that the game will be an interesting one, you should lend encouragement toward it, for it will assist the boys in getting up a strong fund, provided there is any over after paying for the uniforms.

The full line-up of both teams will be given tomorrow, and the game will be called promptly at 4 o'clock. This being a half-holiday with the dry goods stores, it is probable that the others will be closed the same as last Thursday.

YESTERDAY'S RESULTS IN SOUTH ATLANTIC

The scores in the South Atlantic League yesterday were as follows:

Augusta 10, Columbus 0.
Jacksonville 3, Chattanooga 4.
Macon 1, Charleston 2.
Savannah 4, Columbia 0.

Variety.

"I can't see why you don't like hotel life," said Mrs. Gramercy. "It relieves a woman of all her cares and gives her so much spare time. Now, honestly, don't you find that home cooking becomes rather monotonous?"

"Not at all," replied Mrs. Park. "Why, my dear, we have a new cook every few weeks."

INSTANT RELIEF FROM DREAD CATARRH

Why don't you get rid of that nasty, humiliating disease catarrh?

You can do it if you really want to.

But you can't cure catarrh in a few days, that's an utter impossibility, because there is no remedy known that will kill the catarrh germs in that short time.

But you can cure catarrh if you will have a little patience and breathe in Hyomei, (pronounced High-o-me) three or four times a day.

Hyomei is a powerful antiseptic and germ killer air; it is made from the fluid extracted from the eucalyptus trees of inland Australia where catarrh has never existed.

It gives relief instantly, stops hawking in a few days and is guaranteed to cure catarrh, asthma, croup and bronchitis or money back. A complete outfit, including inhaler, costs \$1.00, and extra bottles of Hyomei if afterward needed, cost but 50 cents. Sold by leading druggists everywhere.

"Hyomei certainly saved my life and I accord it the credit which it deserves and merits. There is nothing too strong for me to say regarding Hyomei."—Mrs. Ada Hopkins, 8 Cutler avenue, Coldwater, Mich. August 22, 1908.

MI-ONA Cures Indigestion

It relieves stomach misery, sour stomach, belching, and cures all stomach disease or money back. Large box of tablets 50 cents. Druggists in all towns.

Women Suffer

much needless pain when they delay using Cardui for their female troubles. Cardui has been found to relieve headache, backache, pain in the side and dizziness arising from deranged organs. It does more than relieve—if used persistently, many have written to say that it cured them.

It Will Help You

Mrs. Maxwell Johnson, Tampa, Fla., writes: "Cardui cured me after doctors and everything else had failed. I had been suffering with numb spells ever since I was 16 years old. One day I decided to take Cardui. I have now taken 5 bottles and I can say that it has cured me. I advise all suffering women to give Cardui a long and fair trial."

Mrs. Johnson suffered years. Have you? Do you wish to? But why suffer at all? Take Cardui. Give it a fair trial.

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operating.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

WILL THE JEWS GO?

To what extent the project of transporting Turkish and Russian Jews to Mesopotamia and the founding there of a Jewish state will succeed is uncertain. As to the country itself, the soil is exceedingly fertile, but like a good deal of our own Western land it needs irrigation in order to be productive. It is stated that to restore the old-time productivity \$40,000,000 would be required, but that sum, great as it is, will be speedily forthcoming from wealthy Jews if the idea materializes.

But will the Jews or any considerable number of them go to Mesopotamia? As for the Jews in Turkey and Russia their condition is so miserable that almost any change would be for the better. This may induce many of these down-trodden people to go if the way opens. But so far as concerns the Jews in this country it is extremely unlikely that many would go. The Jews may be very enthusiastic about Palestine and the other regions with which their former national history is associated, but that enthusiasm is not going to make them give up a good living and favorable civil and political conditions for an uncertainty.

In the old days of Ezra and Nehemiah the number who left Babylon to rebuild Jerusalem and start afresh as a nation was comparatively small, and the prospect is that it would be much the same in the proposed venture. Chicago and New York are more attractive than Jerusalem or the plains of Mesopotamia as a permanent abode.

A JUST COMPLAINT.

Complaint is made of the reckless driving of automobiles in various sections of the country, and especially of the speed at which some machines are run between Gainesville and Micanopy. Care should be taken by drivers of these machines to give the proper signal and slow down speed when rounding a curve or climbing a hill, as it is dangerous to pedestrians and occupants of vehicles drawn by horses not to observe these rules. Many people are becoming incensed at the recklessness with which some owners of automobiles speed their machines on the public highways, and we would not be surprised at the news of a serious tragedy resulting from such recklessness. Don't forget, Mr. Automobilist, that other people have some rights on the public highways, as well as yourself.

There will never be a reapportionment of representation in the Legislature based upon population, as required by the Constitution, until a Constitutional Convention is called—unless some method is devised to compel members to comply with the Constitution. Representatives from counties like Hamilton, Bradford, Nassau, Suwannee, Madison, Jefferson, Leon, Santa Rosa, and others of not half the population of Alachua, but which have the same representation in the Legislature, will never vote for a reapportionment based upon population. They have the power to prevent such reapportionment, and they have never failed to exercise such power, irrespective of the direct command of the Constitution.

The people are criticizing the Legislature for having done nothing during the past sixty days' session. This criticism is nothing, however, compared to the "cussing" the members would have had administered to them had some of the pending bills been enacted into law.

\$100 Reward, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for testimonials. Address,

THREE MONTHS OF TAFT.

President Taft has now occupied the White House a little over three months, and the first months of the new administration have brought to the business world just what it anticipated—a period free from convulsions, excitements and strenuous policies. The country is enjoying an administration that means recuperation and a "let-us-alone" policy. It has had enough of reforms for the time being. It wants to adjust itself to the policies which Taft's predecessor has bequeathed. This does not mean that Taft will sit idle and be a quiet onlooker. He will act when the time comes, but only when grave abuses clamor for a remedy. He evidently prefers to be a conservator than a pathfinder. His character is that of the quiet judicial administrator of the trust placed in his hands. It cannot, however, be said that the stormy administration of his predecessor has not resulted in good for the country. It has infused the nation with a higher standard of business ethics, and the preservation of these will mean a new era of healthy progress and lasting achievements.

GAINESVILLE HAS FINE TRAIN SERVICE

ANOTHER NEW TRAIN TO BEGIN
OPERATION ON MONDAY.

Coming in the Dull Season It Will
Greatly Benefit Gainesville's
Trading Interests.

Commencing next Monday, Gainesville will be placed on the best schedule she has ever enjoyed from all sections of the county, and the Board of Trade and the merchants should feel highly elated upon having scored this success.

The Citra train, which is run from Citra to High Springs, will hereafter be run from Wilcox through here, and the early Ocala train will be run via Micanopy, in fact nearly everything that was asked for by the Board of Trade has been granted.

The train from the western part of the county will leave there early in the morning and arrive in Gainesville about 8:30 a.m., making the trip on to Citra. Returning, will pass here at 6 p.m. for its western terminus.

The Ocala train will arrive about its usual time but will run via Micanopy, giving the citizens of that place a chance to visit Gainesville without having to take the long drive to Evinston.

The schedule for the new service has not been received, but Superintendent McArthur, who has worked hard to assist the citizens in securing the change, states that the order has been confirmed and the schedule will go into effect next Monday.

ECZEMA FROM HEAD TO FOOT

For Six Months his Suffering was Beyond Words—One Mass of Irritation and Itching was Dreadful—Slept Only from Sheer Exhaustion—Almost Out of His Mind—After 24 Hours' Use of Cuticura Slept Like an Infant and Then was

CURED IN ONE MONTH BY CUTICURA REMEDIES

"I am seventy-seven years old and one day, some years ago, I fell from a step-ladder, bruising my heel. In a few days I could not walk. I called in a doctor and inside of a week erysipelas set in. The doctor had not cured me of that when I was taken with eczema from head to foot. I was sick for six months and what I suffered tongue could not tell. I could not sleep day or night because of that dreadful itching; when I did sleep it was from sheer exhaustion. I was one mass of irritation: it was even in my scalp. The doctor's medicine seemed to make me worse and I was almost out of my mind. I read of Cuticura and sent my wife to the druggist, who was a member of my Lodge of Odd Fellows, for a set of the Cuticura Soap, Cuticura Ointment and Cuticura Resolvent. I used them persistently for twenty-four hours. That night I slept like an infant, the first solid night's sleep I had had for six months. I was not afraid to use plenty of Cuticura Ointment and Cuticura Soap with hot water and in a week's time I was able to put on my clothes again. In a month I was cured. From that day to this I cannot praise the Cuticura Remedies too highly. I may add that I have a very heavy head of hair which I owe to Cuticura. W. Harrison Smith, R.F.D. 2, Mt. Kisco, N.Y., Feb. 3, '08."

A single set of the Cuticura Remedies is often sufficient for the treatment of the most torturing, disfiguring, itching, burning and scaly humors, eczemas, rashes and irritations, with loss of hair, from infancy to age, when all other remedies fail. Guaranteed absolutely pure and may be used from the hour of birth.

Cuticura Soap (25c.), Ointment (50c.), Resolvent (50c.), and Chocolate Coated Pills (25c.), are sold throughout the world. Potter Drug & Chem. Corp., Sole Prop., 137 Columbus Ave., Boston, Mass. *Read the Name of Cuticura Books on Skin Diseases.*

Moving on Short Notice.

I was lying on the floor of an old country log house one summer day near a big open fireplace when I heard a peculiar, frightened squeak. I got up to see what looked like a huge mouse moving at a very rapid walk across the room. When I got a closer look I saw that it was a mother mouse moving her whole family. At least I hope there was none left behind, for very soon a small snake, but large enough to put into a panic the mother of four less than half grown children, came through the empty fireplace and after the little fugitive. The mother mouse had two in her mouth, and fastened to either side of her, apparently holding on with their mouths and for "dear life," were the other two. I killed the snake and watched the moving family disappear through a hole in the corner. I do not know whether they returned after awhile or whether the father mouse put up a "To Let" sign and joined them in a foreign country, but I do know that I saved a happy family.—St. Nicholas.

The Creditor's Letter.

Here is an interesting letter received by a well known English tailor in reply to a "final" application for settlement of a long outstanding account: "I have much pleasure in informing you that I have placed you on the list of my creditors, your number on the roll being 103. In view of your name appearing so far down my list and in common fairness to my other creditors who have been on my books now for some considerable time, I am afraid I cannot hold out the slightest hope of the 'early' settlement which you ask for. I think it will be well, therefore, if you discontinue forwarding your frequent 'reminders,' which can do no possible good and which are a constant source of annoyance to me."—London Pick-Me-Up.

Both Tainted.

"You are in the employ of that millionaire up on the hill, aren't you?" snapped the sharp faced woman who ran the butter and egg shop.

"Yes, ma'am," responded the man in the white apron, "and I want two pounds of butter for my master's table. He said he'd send to town after it, only the roads are so bad."

"He did, eh? Well, we are not particular about his trade. Did you tell him I said his money was tainted?"

"Indeed, I did."

"And what did he say?"

"Said so was your blamed old butter."—Chicago News.

FLORENCE NIGHTINGALE.

Her Summary Method of Snapping Official Red Tape.

When Florence Nightingale came, instantly a new intelligence, instinct with pity, afame with energy, fertile with womanly invention, swept through the Scutari hospital. Clumsy male devices were dismissed, almost with a gesture, into space. Dirt became a crime, fresh air and clean linen, sweet food and soft hands a piety. A great kitchen was organized which provided well cooked food for a thousand men. Washing was a lost art in the hospital, but this band of women created, as with a breath, a great laundry, and a strange cleanliness crept along the walls and the beds of the hospital. In their warfare with disease and pain these women showed a resolution as high as the men of their race showed against the gray coated battalions of Inkerman or in the frozen trenches before Sebastopol. Muddle headed male routine was swept ruthlessly aside.

If the commissariat failed to supply requisites, Florence Nightingale, who had great funds at her disposal, instantly provided them herself, and the heavy footed officials found the swift feet of these women outrunning them in every path of help and pity. Only one flash of anger is reported to have broken the serene calm which served as a mask for the steel-like and resolute will of Florence Nightingale. Some stores had arrived from England; sick men were languishing for them. But routine required that they should be inspected by a board before being issued, and the board, moving with heavy footed slowness, had not completed its work when night fell. The stores were, therefore, with official phlegm, locked up and their use denied to the sick. Between the needs of hundreds of sick men and the comforts they required was the locked door, the symbol of red tape. Florence Nightingale called a couple of orderlies, walked to the door and quietly ordered them to burst it open and the stores to be distributed!—Cornhill Magazine.

Dolly Madison.

Mrs. Dolly Madison, the wife of the third president, is described by Griswold in this way:

"Dolly Payne, born in North Carolina, has been educated according to the strictest rules of the Quakers in Philadelphia, where at an early age she married a young lawyer of this sect named Todd; but, becoming a widow, she threw off drab silks and plain laces and for several years was one of the gayest and most fascinating women of the city. She had many lovers, but she gave the preference to Mr. Madison and became his wife in 1794."

The Mistress of the House.

"She spends all her time in the library."

"Ah, she is literary?"

"Not especially. But the cook won't allow her in the kitchen, and the maids don't want her about the halls or parlors."—Pittsburg Post.

Cured in Two Weeks or Money Back.

In fact W. M. Johnson, the druggist, has a wonderfully efficient hair restorer called Parisian Sage which costs only 50 cents a bottle that is guaranteed to cure dandruff in two weeks or money back!

Parisian Sage is the discovery of one of the world's greatest scientists, who knowing the value of sage as a scalp cleaner and hair restorer, combined it with other ingredients in proper proportions, and the result is the most wonderful hair tonic in the world.

Parisian Sage is a most pleasant, daintily perfumed hair dressing, and besides curing dandruff, your druggist will return your money if it fails to stop falling hair or itching of the scalp.

It will make hair grow, and women who desire soft, beautiful and luxuriant hair can have it in two weeks by using this famous, quick-acting preparation. W. M. Johnson sells it under a guarantee.

Don't let any druggist tell you he has something just as good as Parisian Sage because there isn't any hair restorer so good. The girl with the auburn hair is on every package, and you get a much larger bottle of Parisian Sage for your 50 cents than you get of the ordinary.

"He did, eh? Well, we are not particular about his trade. Did you tell him I said his money was tainted?"

"Indeed, I did."

Didn't Impress Him.

Shortly after his rise to the Bench Judge Coleman had occasion to pronounce a life sentence upon a notorious offender. In the course of his remarks the judge spoke with so much feeling and eloquence that many of the listeners were deeply affected. The prisoner, on the other hand, seemed to be quite indifferent, looking at the ceiling and apparently giving no attention whatever to what was being said. After he had been remanded to jail one of the young lawyers had gone into the cell, curious to know how the criminal had felt when his honor was passing sentence upon him.

"What do you mean?" asked the convicted one.

"I mean when the judge was telling you you must go to prison for life."

"You mean when he was talking to me?"

"Yes."

"Oh, I never paid no attention to Dick Coleman. He ain't no public speaker nohow!"—Argonaut.

The Fate of the Fancy Set.

James, aged seven, had been promoted. In recognition of this great event his father purchased for him the following things that James insisted were necessary:

A box of one dozen pencils, assorted leads; one ink and one pencil eraser, one pencil box with a marvelous roll top, three copybooks for home work, two penholders and a patent strap that was a marvel of ingenuity, but somehow or other didn't seem to hold the books very firmly.

The father examined the outfit a few days after and found that it contained—

One much chewed lead pencil furnished by the city, a scribbling pad with a few sheets on it, a tin fountain pen that did not work and never could have worked and a slate strap to hold the things together.

The father asked no questions. He instinctively knew what had become of the fancy implements of education.—New York Press.

THE EARTH'S MOTIONS

How We Are Whirling Around and Through Space.

THE INFLUENCE OF THE SUN.

Without Its Attraction That Draws the World Toward It In an Elliptical Course Our Globe Would Wander on Forever in a Straight Line.

There are those who think much of moving from one point to another of the earth—travel they call it—and yet pay little heed to the wonderful journey of the earth itself. Many, again, go to seek a climate while the burly earth is bringing to them one climate after another in endless succession. Those who have not hitherto taken much notice of the earth's progress—who have not, so to speak, looked out of their carriage window as they are whirled along—might find a new interest in doing so. Look, for example, at the apparent size of the sun. Casual observation shows that it appears larger in the winter heavens. And exact measurements tell us that it is largest on Jan. 1 and smallest on July 2. The size of the sun thus marks the earth's nearest approach and greatest distance from the sun. Accurate astronomical measurement of the sun's diameter might even determine the day of the year, for the daily variation in the apparent size of the sun is some nine-fiftieths of a second of angular measurement. And astronomers profess to measure the second decimal of seconds.

There are three ways in which we are journeying with the earth. There is, first, the daily revolution, which carries us through a complete circle in twenty-four hours at a rate varying from rather more than a thousand miles an hour at the equator to nothing at the poles, where no one, by the way, has ever been. Then we are traveling around the sun once a year at the rate of eighteen miles a second. Thirdly, we are journeying through stellar space, for one of the most remarkable facts which modern astronomy has brought to light is that our solar system, the sun with all its planets, is on a journey toward the constellation Lyra at the rate of ten miles a second.

As we sit in a train and are whirled along it sometimes appears as if the scenery were flying past us rather than we past it. So the daily revolution of the earth—a thousand miles an hour at the equator—makes the sun rise and set, and our yearly journey makes the sun apparently travel through the constellations of the zodiac. If we move round any stationary object on the earth we see it with a constantly changing background—now a windmill, now a cottage, now a wood, now a church, etc. So as we travel round the sun we see it with an ever changing background of stars—now those of Aries, now of Taurus, now of Gemini, and so on. The position of the sun among the stars marks the stages of the earth's annual journey. And as the earth arrives at different points of its orbit the times of the risings of certain stars vary. These indications of the earth's progress have been taken as marks of the seasons. Thus when Sirius rose with the sun it was known that the dog days had begun. Early astronomers watched carefully for the rising of the dog star. The Egyptian astronomers looked for the helical rising of Sothis to proclaim the new year.

It is the earth's yearly journey round the sun which enables us to determine the distances of the stars. The method is precisely that adopted by surveyors for determining the position of objects on earth. The direction of the object whose distance is to be found is observed from two points a known distance apart. The rest is mere calculation. In the case of the stars the directions are observed from two extreme points in the earth's orbit instead of from the two ends of a base line. The process is called triangulation when applied to earth measurements, and everybody understands what it means. When applied to the stars it is called parallax and remains a mystery to most people. Such is the obscuring power of a word.

The "little more" and the "little less" of Browning are forcibly illustrated in the direction of the earth's journey round the sun. An elliptical course differing very little from a circle, combined with a tilt of the axis, gives us the seasons. But if this difference and tilt did not exist there would be no seasons and one climate would rule the year. If, again, the course were more elliptical, then for the hemisphere whose winter occurred at the earth's greatest distance from the sun there might be a glacial period.

"The straight line," says Miss Helen Keller, "symbolizes duty. It is a dull thought drawn out endlessly." And this seems to be a reflection on what we had thought was the earth's path of duty round the sun, for this path is the curve known as the ellipse. Moreover, the thought makes the sun a tempter of the earth from the strict

path of duty, for the earth, we learn from our Newton, if left to itself would wander on forever through space in a straight line. It is the sun which draws it from this dull course into the pleasant curve of subjection. Yet the sun's victory is only partial, the earth's actual path being a combination of its own straight line of inclination and obedience to the pull of the sun. And so instead of the "dull thought drawn out endlessly" we have the beautiful thought of the changing seasons, the flowers and fruits of the earth, with its ever varying weather, sunshine and storm, heat and cold.

NEW GUINEA COURTSHIP.

All the Proposals of Marriage Are Made by Women.

Away off in the strange island of New Guinea it is leap year all the time in one important sense, for out there all the proposals of marriage are made by the women. It is considered beneath the dignity of the male inhabitants of New Guinea to even notice a woman, and consequently the women perfume must notice the men and must start any idea of weddings, etc.

So when the island belle of New Guinea becomes in love she promptly sends a piece of string to the sister of the lucky man. If he has no sister she sends it to his mother or to some female relative—this because the man and his male relatives are assumed to be above taking any steps toward acquiring a wife.

Then the sister says to the man involved: "Brother, I have news. So-and-so is in love with you." If he inclines to matrimony the man makes an engagement to meet the enamored lady. When they meet it is alone, and they either decide to wed or drop the entire proposition at once. There is no courting, for the man is not allowed, theoretically at least, to waste any time on a woman—not even enough time to make love to the lady or to allow her to make love to him.

The betrothal is announced, and the engaged man in New Guinea is branded on the back with charcoal, but the woman's mark of engagement to wed is actually cut into her skin and is never allowed to completely vanish. If either one decides to break the engagement nothing can be done by the offended party.

If the girl decides that, after all, she sent the little piece of string by mistake the man is apt, however, to catch her some time alone and beat her. If the man hits the woman her relatives often hunt him up and administer a sound drubbing. Blood, however, is seldom shed, as the breaking of these women made engagements is not deemed a very serious matter.

Though the women propose the weddings in New Guinea, the condition of the wife is miserable and unjust in the extreme. The girl is merely the property and slave of the husband. He can beat her unrebuked and even kill her with impunity if she incurs his enmity.—Atlanta Constitution.
